

COPY OF FORM 990

(TO BE USED, OR COPIED, FOR)

****PUBLIC INSPECTION ONLY****

NOTE

Under Internal Revenue Regulations, tax-exempt charitable organizations generally must provide requesters with COPIES of:

- Its approved exemption applications, all required attachments and any related correspondence with the IRS, and
- Its three most recent annual information returns (Form 990), including all schedules and attachments (but not the names and addresses of contributors).

In-person requests: A member of the public may request to inspect the documents at any principal office of the organization. The entity must provide the information requested that same day. However, if the request places an “unreasonable burden” on the organization, the staff must provide copies of the requested information no later than the next business day after the unusual circumstances cease to exist (limited to a maximum of five business days after the request).

Written requests: Written requests made by fax, mail, email, or overnight service, which include the requester’s address, must be honored within 30 days of receipt.

Website alternative: Instead of providing copies, an organization may make the documents available on either its own or another organization's website. If it uses this option, it has to: (1) provide an exact replica of the document as was filed with the IRS; (2) advise requesters how to access the forms on the web; (3) the site should charge no access fee and require no special software or hardware to download. Organizations that post this information on the Internet still must honor in-person requests to view the applicable documents.

Permissible charges: Tax-exempt organizations may charge a reasonable copying fee, up to \$1 for the first page and 15 cents for each additional page, plus actual postage costs.

Penalties: An organization that fails to comply with the new disclosure requirements may be subject to the following penalties:

- Annual Information Return – Form 990 - \$20 per day for as long as the failure continues, up to a maximum of \$10,000 for each failure to provide an annual return.
- Exemption Application - \$20 per day with no maximum.
- An organization that willfully fails to comply with these public inspection rules can be subject to an additional \$5,000 penalty.

Private foundation exempt: The new disclosure rules don't yet apply to private foundations. They must still make a copy of their annual return available for public inspection at their principal office for a period of 180 days after publishing a notice of availability.

Donor Information: Please note that donor information is not open to public inspection and has been excluded from this copy.

and exempt from Federal income taxes, except that unrelated business

income is taxable. The Organization had no unrelated business income tax

during the year ended December 31, 2017.

U.S. GAAP requires management to evaluate tax positions taken and

recognize a tax liability (or asset) if the Organization has taken an

uncertain tax position that more likely than not would not be sustainable

upon examination by taxing authorities. Management has analyzed the tax

positions taken and has concluded that as of December 31, 2017, there are

no uncertain tax positions taken or expected to be taken that would
 require recognition of a liability (or asset) or disclosure in the
 financial statements. If the Organization were to incur an income tax
 liability in the future, interest and penalties would be reported as
 income taxes. The Organization is subject to routine audits by taxing
 jurisdictions; however, there are currently no audits for any tax periods
 in progress. Management believes the Organization is no longer subject to
 income tax examinations for the years prior to 2014.

Pharmaceutical GIK contributions received are valued using costing data acquired from recognized and published resources and are valued at their estimated wholesale acquisition cost ("WAC") on a drug by drug basis. If WAC is not available, the Organization refers to the donor's value. This valuation policy most resembles one used by a wholesale distributor of goods, which is the market role the Organization has in the acquisition and shipment of pharmaceutical donations.

Pharmaceutical GIK contributions acquired from non-U.S. donors for products legally permissible to be sold outside the United States are valued based upon the wholesale market price in the countries representing the principal exit markets for those products.
